

● **HOVUS... Casings, Films and so much more!**

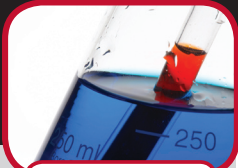

OLD WORLD KNOWLEDGE

**H O V U S**

NEW AGE APPLICATION

**We invite you to explore the dimensions of our multifaceted company. At HOVUS, we wear the hats of many professions...**

**Scientist**

... at your processing facility, collecting data, analyzing outcomes, and understanding mechanisms for the interaction of food and package.

**Engineer**

... working with expert manufacturers to create the best solution for your processing system, evaluating the stresses, tolerances and acceptable end results.

**Artist**

... of the plastic canvas, rendering new or revising existing artwork to convey your message, and producing each piece with the most modern printing equipment available.

**Accountant**

... who subscribes to the concept of value. We won't try to sell you the packaging diamond you can't afford or the cheap stuff that costs so much more in the final analysis.

**Your Partner**

... because we regard your success as our success, and we do our best each day to build your trust in us and your image in the marketplace.

**WHAT'S NEW**

**HOVUS is pleased to announce the addition of two new products to our victan® line; *Multisafe* and *Formex*.**

The *Multisafe* line was constructed to satisfy the requirements of the most demanding food processors whose products require extremely extended shelf life. *Multisafe* casings offer high water and/or oxygen barriers while providing outstanding mechanical characteristics.

The *Formex* line was specifically designed as a multilayer shrinkable casing for the production of cooked formed meat products such as cooked hams. The shrink ratios of this product are specifically suited to allow optimum formation of edges and corners during the cook and cool cycles.

Contact one of our technical sales specialists to learn more about our latest casing and film offerings.
